VoiceMap works offline and uses GPS to play audio automatically, at the right time and place. So, you can put your device away and focus on your surroundings. If you do wander off course, we'll let you know. And you can always take a quick look at the map on your screen.

## A port for the people

The V&A Waterfront, South Africa's oldest working harbour, is also one of Africa's most visited destinations. But, how did it transform from an uninviting, industrial port to a place where everyone can enjoy rediscovering Cape Town's connection with the sea?

On our new audio walking tour, you'll learn about the humble beginnings of the V&A Waterfront, starting with Ferrymans Tavern. You'll travel through time, history and culture. You'll meet some of the characters who've helped shape its evolution and hear some of the stories that brought it to life.

Whether this is your first time at the V&A Waterfront, or your hundred and first, this walking tour will open your eyes to hidden traces of history, the complex dance of daily operations, and the exciting opportunities this space holds for the future.
